

Dear Members,

2023 HPR Holiday Newsletter

Hope you like the new HPR logo as much as our HPR board does. It was designed by our own director Brittany Sommerville. This holiday note is in lieu of our normal monthly meeting where we decided December was busy and crazy enough without one more meeting to attend. We hope you understand.

Most of all, we hope this holiday season and your Christmas is filled with family, friends, and joy! Those of us working closely with HPR are celebrating a special 2023-24 filled with much growth in our efforts to impact our river and a renewed hope that we can make a difference as we gain support and funding from our communities and members who have stepped up their commitment to make a difference.

On the 2nd page of our holiday email we will share with you the many groups who are either working directly with HPR on river projects or who have contributed funding to help move us forward in those projects.

The other list is our current efforts at bringing to reality some of our HPR priorities for 2023-24. We hope you will take a few minutes to review the list of our partners along with the projects and priorities we are working on to improve our river and tributaries.

Lastly, in January after the holiday rush has subsided and whatever "normal" is now returns we will begin our 2024 membership drive for dues and donations. We hope we have proved to you how serious HPR is at trying to make a difference in restoring our local Pine River as one of the few natural water resources in our county and watershed.

Please know how appreciative we are in your giving.....it does make a difference!!

***There is so much to be thankful for this holiday season!
Wishing you a Merry Christmas & Happy New Year!***

Partners who are either working
with HPR or helping with funding!
